

# ECE104 conspicuity

## ECE104 Conspicuity

From July 2011, all new HGVs must be fitted with reflective tape to ECE104

3M materials

We offer a complete range of 3M ECE104 homologated retroreflective safety markings for rigid and curtain sided vehicles.

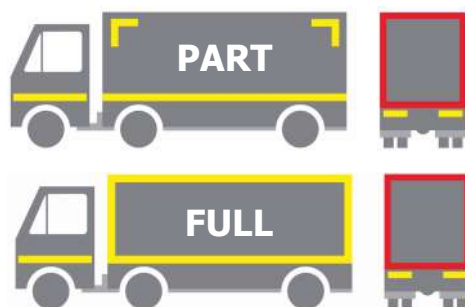

From July 2011, all newly registered HGVs with a mass over 7.5 tonnes and trailers with a mass over 3.5 tonnes operating in the UK, will be required by law to be fitted with retro-reflective vehicle safety markings.

Tape needs to be CE marked to conform to the regulations.

### Proven to considerably reduce night-time accidents

Reflective tape clearly outlines the rear and sides of the vehicle, making it visible at up to 1000 metres at night. This means a HGV may be seen by motorway drivers up to 8-9 seconds earlier than those without vehicle safety markings.

### Coverage options:

**Supply only or supply & fit. Please call for a quote**
